All I remember saying is 'Oh my God, she's naked!' at least three times and 'Where did you get this?' at least twice. I was laughing hysterically by the time the scene was over."

Chris Montgomery '97

"My most embarrassing moment was when I couldn't get the door open and I had to walk through the imaginary wall on student night. I'll never live that one down."

How can he drink 1 billion bottles of beer a year?

Don't ask how...ask why.

Why ask why? Because that's how many beers America's junior and senior high school students consume each year. They also drink 35% of all wine coolers sold in this country. Amazingly, 7 million underage Americans purchase the alcohol they consume.

America's young people have a problem with alcohol.
It's time we ask why.

You go first.

Thinking

If you think you are beaten, you are.
If you think you dare not, you don't.
If you'd like to win but you think you can't,
It's almost a cinch you won't.

If you think you'll lose, you're lost.
For out of the world we find
Success begins with a person's will – –
It's all in the state of mind.

If you think you're outclassed, you are;
You've got to think high to rise;
You've got to be sure of yourself before
You can ever win a prize.

Life's battle doesn't always go
To the stronger, faster woman or man.
But sooner or later the person who wins
Is the one who thinks they can.

Edison searched for years before he saw the light.

"Genius is one percent inspiration and ninety-nine percent perspiration," said Thomas Alva Edison.

He knew something about perseverance. After all, he spent years trying numerous materials before finding a suitable filament for his electric lamp invention. Today, the fruits of his efforts are visible around the world.

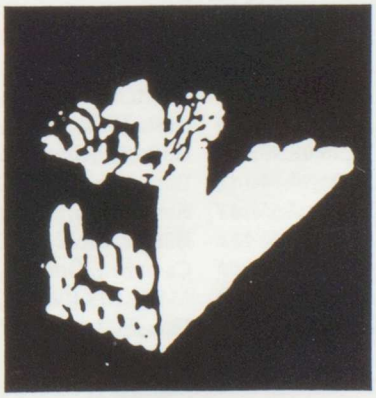

We congratulate the Class of '94 and encourage you to remember the words of Thomas Edison as you begin your future.

Editors' Thoughts and Comments

Working on the 1994 *Shield* is an experience I will always cherish. I would like to thank the staff and Mr. Hennigan for their hard work. Also, thanks to Roxanne and Amy who worked tirelessly.

I owe a special thanks to Lucy. I have been amazed at her ability as an editor this past year. Lucy, thank you for being a great friend, a superior editor, and a wonderful person. Good luck next year and in everything you do!

Amber Pewe
Co-Editor

Working on the '94 yearbook is not an experience I will soon forget. I would mostly like to express my appreciation to Roxanne. We learned a lot and no matter what problem occurred we always had a solution.

I hope you enjoy your yearbook. The editors and staff worked hard and tried our best to meet deadlines and make the best possible *Shield* for 1994.

Amy Engle
Co-Photo Edito

Being an editor this year has been a great experience. Thank you Mr. Hennigan for allowing Amber and I to use our own judgment and creativity for this book. Thank you to the staff, you have been wonderful this year. I appreciate all of your hard work. For Amber, a simple thank you doesn't seem appropriate. You taught me a lot especially about computers. I am sorry that this team will be broken up next year. I'm losing a friend and an editor. Good luck at the University of Michigan.

Lucy Pittman
Co-Editor

Working with the 1994 *Shield* was a very rewarding experience. I learned a lot about photography and computers.

I want to thank Mr. Hennigan for giving me this opportunity. Everyone on the *Shield* staff worked hard to meet deadlines and you did a wonderful job - Thanks . Thanks also to Amber and Lucy for showing me the ropes. A special thanks to Amy who took over the workload when I couldn't. (We had a lot of laughs!) Good luc to everyone in the future.
